## SUMMER READING INFORMATION

St. Ignatius has a Summer Reading Program for all students entering 2<sup>nd</sup> through 8<sup>th</sup> grades. Each eighth grade student is **required** to read three (3) books. The teacher chooses two books and the other is chosen by the student from a grade level list. The students need to read the books during summer vacation and **will be held accountable for these books.**

- Each student will take an Accelerated Reader test online for their required reading. This may be taken during the summer in the library or computer room or the first week of school.

A newspaper book report packet for your optional book is included. It will be due the first week of class.

All books on the list can be found at our school library, the public libraries, or any of the bookstores in the area.

We recommend that you purchase the required book, as the student will need them for Reading class at the beginning of the school year.
